Product Overview

The Glacier Bay 2-Piece Dual-Flush Round Toilet in White is an ultra-low-flush commode that conserves water without sacrificing performance. It offers a high-efficiency half-flush option that conforms to the EPA's WaterSense standards, releasing a modest 1.1 Gal. of water for liquid flushes. When full flushes are needed, simply press the corresponding top-mounted push button to release a 1.6 GPF cascade. The round bowl design and narrow profile make this two-piece toilet an ideal choice for small bathrooms.

- Includes all components needed for installation, including a wax ring, floor bolt caps, toilet seat with lid and water tank with cover
- Toilet water supply line not included
- Constructed of durable, crack-resistant vitreous china
- Dual-flush option allows users to conserve water by choosing an ultra-low flush for liquids
